

## A Little History

The Hotel was built in 1968. Soon it became the most popular spot on the island.

It was unfortunately abandoned for ten years after being closed during the 90s.

In 2003 we discovered its magical ruins and were captivated by the beauty of the place. The BLISS concept was born... "Seaside", on the intense blue waterfront and "Hill'Side", hidden in the midst of many luxuriant shades of green.

For you we created an authentic place, where sobriety, discretion, elegance and simplicity combine to blend in with nature. Come journey with us !
